

04. Health Procedures

04.06 Oral Health Policy

Codicote Pre-School provides care for children and promotes health through promoting oral health and hygiene, encouraging healthy eating, healthy snacks and tooth brushing.

- Fresh drinking water is always available and easily accessible.
- Sugary drinks are not served.
- In partnership with parents/carers, babies are introduced to an open free-flowing cup at 6 months and from 12 months are discouraged from using a bottle.
- Only water and milk are served with morning and afternoon snacks.
- Children are offered healthy nutritious snacks with no added sugar.
- Parents/carers are discouraged from sending in confectionary as a snack or treat.
- Staff follow the Infant & Toddler Forum's Ten Steps for Healthy Toddlers.
- We promote good oral health through a range of activities that help children understand the importance of caring for their teeth. To further support families, we provide each child with an oral health care pack containing resources and information to promote good dental hygiene at home.

Pacifiers/dummies

- Parents/carers are *advised* to stop using dummies/pacifiers once their child is 12 months old.
- Dummies that are damaged are disposed of and parents/carers are told that this has happened
